## EIFFEL TOWER FOR WIRELESS

Paris, Oct. 25.—The famous Eiffel Tower of Paris, the highest steel structure of its kind in the world, was about to be torn down several years ago on account of its uselessness. Today it is regarded as one of France's most valuable possessions. The French capital, because of the Eiffel Tower, has become wireless center of the world.

Underneath the Champ de Mars, in which the tower stands, a vast subterranean wireless plant has been constructed. Its presence is scarcely suspected by the passer-by, for its only entrance is little more than a trap-door in the ground, partly covered by a clump of trees. But should he attempt to approach too near the little iron staircase leading underground, he will find his way barred by soldiers.

Below ground, amid the maze of passages, gigantic machines and a continual crackling and flashing of the wireless, a corps of military engineers and electrical experts are working day and night to perfect instruments on the accuracy of whose messages in war time may depend France's victory or defeat, and on which also will depend the adequate cooperation of the allied army of Russia. It was in the laboratory here that Prof. Henri Abraham, of the Sorbonne, talked today of what his work as a member of the French Wireless

Mission sent by the government to Washington, will be. Professor Abraham will not join his colleagues until late in October.

"During our work at Arlington last spring," he said, "We succeeded in co-operation with our American associates in establishing the relative time of Washington and Paris within the tenth of a second. Since then we have been able to improve greatly the receiving and recording of wireless messages. We expect now to establish the time of Washington to within a hundredth of a second, and as a part of this result, the longitude of Washington as related to Paris. France will later send missions to the other principal nations with the object of establishing a similar accuracy in the relative times. Once this work is accomplished, the world will receive time signals from the Eiffel Tower and will be able to register them to within a hundredth of a second.

"This effort for accuracy to within the hundredth of a second has required a tremendous improvement in the wireless apparatus and a great advance in clock making. Two of the most important pieces of the equipment which we shall take to America will be chronometers of such extreme precision that after being set before leaving France they are relied upon not to vary appreciably during the whole of the time in America.

"We shall use photography in registering Eiffel Tower signals for fixing the exact longitude of Washington. We arrive easily at the accuracy of a hundredth part of a second by means of a film revolving at a fixed rate of speed and a luminous spot influenced by the wireless messages.

**TALL ACHES** from little Toe Corns grow, Chills and Colds are mighty uncomfortable, while Sprained Ankle may lead to permanent Disability. The Causes are cheap, ill-fitting Shoes. ## FIREMEN KILLED IN MILWAUKEE

Milwaukee, Wis., Oct. 26.—Ten firemen were killed and eighteen others seriously injured tonight in a fire which destroyed the local main store of the Goodyear Rubber company. Seven bodies had been recovered at 9 o'clock and at least three others were known to be under a fallen wall in an alley.

The fire was one of the most spectacular in years, occurring in the very heart of the downtown district. Explosions which followed just as a third alarm had brought most of the fire-fighting complement of the city to the scene, wrecked the burning buildings in an entire city block and buried twenty men in debris. Rescuers saved many of the buried men from death. Tons of brick and stone, however, in the alley in the rear of the structure covered ten or a dozen men. Only two of those taken from the debris were alive, and these two died a few minutes later in the emergency hospital.

The Goodyear store is on East Water street, near Wisconsin. It appeared at first that the fire would sweep the entire block, which is partly composed of historic old brick structure, rebuilt for modern establishments. Three fire boats, however, and nearly every fire engine in the city, were soon on the ground. All the windows of the biggest jewelry store in the city, a hundred feet distant, were blown out, exposing thousands of dollars worth of valuables, and plate glass windows were broken three blocks distant.

The first fire fighters to arrive had started in the alley in the rear of the building, a narrow roadway leading to the brokerage offices, and it was these men who were buried under the entire rear wall.

The estimates of the loss range up to half a million dollars. The fire started a few minutes before 8 o'clock in a vulcanizer in the Goodyear store and the Goodyear block was destroyed.

Other heavy losers included the Zimmerman Clothing company, and Stumpf & Langhoff. A notable instance of heroism was that of Father Murphy of St. John's cathedral, who crept into the ruins and gave absolution to the dying firemen at the risk of his own life.

## DECLARES FOOTBALL IS ALMOST ON TRIAL

Champaign, Ill., Oct. 26.—Athletic Director Huff of Illinois university today issued a warning to the west that football would be given no trial for its existence unless an increasing and unchecked tendency towards dirty "playing" were eliminated.

Coaches who encourage and officials who are lax are censured in the statement, which says in part: "The existence of football will be threatened sooner or later unless a growing tendency to forget the lesson of some years back is checked. 'I do not to unnecessary and unfair roughness.' I do not criticize hard playing, and football, as a matter of fact is rough. But I have noticed a gradual introduction of the same tactics which nearly cost the colleges their favorite game.

"Already this year I have seen 'neck wringing.' I have seen players drag their feet over the head of an opponent. 'Tipping up' players when easily seen to be unnecessary, goes unrebuked. Every football player knows the difference between 'dirty' and 'hard' football. The blame for the existence of this tendency is to be placed on the heads of unscrupulous coaches and complacent officials. It is a matter of common report in the conference camps that certain coaches made no bones of encouraging their men to 'lame and to slug' if they can get away with it. Their line men threaten and curse their opponents, hoping to lead them into a display of honest and almost justifiable physical retaliation that will perhaps be seen and punished.

"I am a believer in football as a square, manly sport, if properly supervised. I would regret to see it lost, but I firmly believe that success with the new style of game will go for naught unless coaches and officials see that the practices I mention are eliminated."

## FALL FROM WAGON CAUSE OF LOCKJAW

Salt Lake, Oct. 27.—Arthur Goecke, 26 years old, died early Saturday morning at St. Mark's hospital from lockjaw, which attacked him as the result of a fall from an ice wagon September 29. The accident, which seemed trivial at first, but which resulted fatally, happened at Fourth North and Second West streets. Goecke was driver for the Salt Lake Ice company and fell from the wagon which he had in charge. Several pebbles and pieces of earth were ground into his elbow by the fall, but he thought nothing of it and at first used only home treatment. His arm rapidly became worse, however, and October 12 tetanus set in and he was removed to the hospital. Dr. T. G. Odell attended him, but was unable to save the young man's life.

The body was yesterday removed to the S. M. Taylor undertaking establishment, where it will be held pending word from his relatives, who live in Pelican Rapids, Minn., his former home. It is probable that the body will be sent there for burial.

## REASON INDICTMENT OF THAW WAS SOUGHT

Albany, N. Y., Oct. 28.—The determination that the lavish and ingenious use of the Thaw millions shall not triumph over justice, is declared by Attorney General Carmody to be the sole reason for the state in having an indictment returned against Harry K. Thaw in New York county. In answer to the criticism of the action of the state in seeking the indictment Mr. Carmody said: "There is no inconsistency in the state's attitude. Thaw was acquitted of murder on the ground of delusive sanity. The state has held him upon the result of repeated findings by the supreme court at the several attempts made to secure his release. If a man is sufficiently lucid to successfully plan his escape from confinement, it is apparent he knows what he is doing and therefore is legally responsible for the act."

## CHANGES IN THE FOREST SERVICE

The October program for field work and assignments in the forest service shows a number of changes in District 4, headquarters for which are in this city.

Appointments to the service are, as follows: Operation department—Forest assistants, Charles D. Simpson, Minidoka; William A. Smith, Payette; Lyle F. Watts, Wyoming. Assistant forest rangers, Alfred C. Toland, Caribou; Joseph A. Willey, Mantle; Edson J. Adair, Uinta. Forest clerks, Earl G. Fogelgren, Ashley; John N. Kinney, Santa Rosa; Lulu L. Cloudman, clerk, Mantle.

Those reinstated in the operation department are: Irvin W. Cook, forest ranger, Ulrich C. Pogue and Lemuel Steele, Jr., Targhee. Change in designation in operation department: Lester E. Hitchcock, deputy forest supervisor to forest examiner, Ashley.

Transfers in the operation department: Forest rangers, Bert L. Robins, Nebo to Fillmore; Angus M. Woodbury, Dixie to office of lands. Assistant forest rangers, Archer Huff, Kaibab to Santa Rosa; Carl Stockbridge, Ruby to La Sal. Forest clerk, Clarence B. Johnson, district office to Salmon; John N. Kinney, Santa Rosa to Palisade. Clyde M. Gwin, clerk, district office to Idaho. Grazing, Arthur W. Sampson, plant ecologist, District 7 to District 4.

Promoted in rank in the operation department: Scipha B. Arthur, deputy forest supervisor to forest supervisor, Humboldt; William F. Thorne, forest ranger to deputy forest supervisor, Nevada. Forest assistant to forest examiners, Dana Parkinson, Boise; Edwin C. Shepard, Cache; William S. Sparhawk, Payette; J. Harrington Stokes, Targhee; Harry B. Maris, Teton; Nils B. Eckbo, Uinta; Forman T. McLean, Utah experiment station; Andrew E. Oman, Weiser; Roland A. Stretch, Wyoming. Assistant forest rangers to forest rangers, Edward C. Bagley, Fishlake; Charles E. Butler and Walvin T. Job, Humboldt; Warren E. Cook, Idaho; John H. Kroenke, Minidoka; Joseph Barnett, Nebo; Robert A. Tempest, Palisade; Earl R. Gibbreath and Camas Nelson, Salmon; Frank A. Herrell and Paul L. Travis, Santa Rosa; James G. Houston, Sevier; Ernest A. Renner, Targhee; Robert E. Clabby, Weiser; Frank A. Travis and George W. Yeaman, Wyoming.

Sylviculture: Sidney S. Scribner, clerk to scaler. Leave without pay, operation department: Clinton M. Mangum, assistant forest ranger, Weiser. Resigned from operation department: William F. Thorne, deputy supervisor, Nevada; Irvin W. Cook, forest assistant, Weiser. Forest rangers, Harry H. Long, Lemhi; Ivan L. Rawson, Weiser. Assistant forest rangers, Heber C. Hancock and Ernest P. Joice, Caribou; Archer Huff, Santa Rosa. Forest clerks, Earl G. Fogelgren, Ashley; Harry H. Power, Salmon; Inez M. Soule, clerk, Palisade.

C. P. Calvert of the department of lands in the Ogden office will leave Friday morning for Gold Creek and Nevada City to survey a number of homesteads for which applications for patents have been made. There are eighteen homesteads to be located, all of which are on the Humboldt national forest.

Supervisor Daniel S. Pack of the Nebo forest arrived in the local office for a few weeks' detail work.

**NO GROCERIES ON CREDIT IN IDAHO FALLS**  
Idaho Falls, Ida., Oct. 26.—Idaho Falls grocers have proposed to place everything on an absolutely cash basis after the first of the year, and they also propose to charge patrons in town 5 cents extra for all deliveries of less than \$1 in value.

A meeting of the grocers was held Thursday night at which it is said that steps spoken of were brought up, and only the absence of two firms, it is understood, delayed the signatures necessary to an agreement on the part of all. Later these were secured, and yesterday the local press received signed statements covering both features. The extra charge is to go into effect November 15. The grocers in their statement to the public say that small deliveries do not pay.

The cash basis is explained by the incursions of numerous mail order houses and the loss of many accounts of late. Idaho Falls being the largest town between Pocatello and Butte and the center of the most thickly populated district, with reference particularly to the potato industry, is naturally the source of supply for hundreds of farmers scattered throughout several counties, many of whom come here to trade. The new agreement, therefore, will affect many people in addition to the residents of this city.

## CHEBERYAK WOMAN MAY STAND IN DOCK

Kiev, Oct. 26.—The entire testimony in the case against Mendel Belliss is now before the world. The case was concluded today with many important evidence from Colonel Ivanoff, who was second in command of the Kiev gendarmery and from other officials who were engaged in the preliminary inquiry.

The facts brought out are such that no just judge and no unbiased jury will be able to convict Aron prisoner before them, and with him the whole Jewish race, of the ghastly crime, whereof Belliss has been accused. Everybody who has followed the case is convinced of this and the expectation of acquittal is growing in every quarter.

If Belliss is set free, it is generally believed he will be replaced in the dock by Vera Cheberyak and as many

## members of her gang as the police can lay hands on.

Colonel Ivanoff's testimony today was vague and valueless. So far as it went it supported the case against Belliss, which is now so discredited that it would require direct and damaging evidence to resuscitate it. The colonel said that a red-headed Jew had been seen following the Yushinsky boy and that a Jewish religious official named Shneerson stopped with Belliss for a month about the time of the murder. He also declared that Brushkowitz, Margolin and Karayeff were paid for their assistance to Krasovsky in investigating the affair. He said that the first named got more than \$1000. Finding that the blood accusation is losing force, the anti-Jewish Journal, Double Headed Eagle, prints a violently worded manifesto seeking a review of the agitation. The manifesto says:

"A challenge has been thrown down by the Jews who think they can crush Russia by a weight of gold watered with the blood of Christian children. Let them remember that the Russian youth is rising for a terrible struggle against the Jewish mob. Forward, brethren, bravely for the salvation of holy Russia!"

In the meantime the anti-Jewish feeling is still very strong in the south of Russia, whatever it may be in the more enlightened parts of the country.

## BURGLAR SUSPECTS NOW IN CUSTODY

Salt Lake, Oct. 27.—Suspected of having committed several burglaries, including the theft of clothing from the New York Loan office last Sunday, a daylight burglary last Tuesday of the Gus Johnson home, 460 East Sixth South street, and the burglary of Fred Landmesser's apartments, 445 East Fifth South street, Saturday night, James Sma and C. W. Hame were arrested yesterday afternoon. They were picked up on the street by Patrolman F. M. Frantz while attempting to sell a safety razor. A charge of burglary was entered against them.

After the arrest detectives found a suitcase full of loot taken from the Landmesser apartments, cached in a room in the Panama rooming house where Hame is said to have stayed Saturday night. This consisted of valuable aluminum ware, all of which was identified last night by Mr. Landmesser as his property.

The Landmesser burglary took place Saturday night about 10 o'clock while members of the family were at the theatre. One of Mrs. Landmesser's coats was ruined beyond repair when the burglars in an effort to secure what they evidently thought was money sewed inside the lining. The supposed coins were merely weights to hold the coat down.

A pair of nose glasses, stolen among other things from the Johnson home, was positively identified yesterday. The burglars secured a large quantity of jewelry in this robbery. The New York Loan office theft consisted of several articles of men's clothing. These were later taken back to the proprietor and sold to him.

The two men maintained silence all day yesterday. Sma is 23 years old and Hame is 29.

## LEVY MAKING BRAVE STRUGGLE FOR LIFE

New York, Oct. 26.—Isaac Levy, the wealthy clothing manufacturer of Beaconhurst, who eight days ago accidentally swallowed 30 grains of bichloride of mercury, has broken all medical records by being alive today. He is still determined to live, although unable longer to talk distinctly. Several times today it was thought that Mr. Levy was sinking into coma, but he rallied and fought for consciousness and won.

During the day his throat began to swell and thus he was unable to talk

## FOR CITY AUDITOR

distinctly, although in perfect control of his faculties.

Sanction has been accorded to the addition of ten passenger engines to the broad-gauge system of the Bombay, Baroda and Central India Railway during 1914-15. Sanction has been accorded to an estimate for fitting electric key transmitters at fifteen interlocked stations on the Great Indian Peninsula Railway.

## LOYAL IS AS LOYAL DOES

The people of some states are so loyal to their own commonwealth that they will demand their local products even when the quality is inferior and the price higher. Such seal is commendable, but may be carried to extreme. No such sentiment is asked nor expected of the people of Utah in the matter of using Utah products.

There are at least three good reasons why the people of the intermountain country should use the products of the intermountain country. They are these:

First—Because these products are the equal and often the superior of their kind from any other source.

Second—Because in price these products are as cheap and often cheaper than the imported articles.

Third—Because the man who uses these products in preference to any importations is working directly in his own interest and in the interest of every other resident of the intermountain country.

The moral is: KEEP WESTERN MONEY IN THE WEST TO BUILD UP THE WEST.
